

For the Lord thy God
bringeth thee into a good land,
a land of brooks of water,
of fountains and depths that
spring out of valleys and hills;
A land of wheat, and barley,
and vines, and fig trees,
and pomegranates;
a land of oil olive, and honey;
A land wherein thou shalt eat
without scarceness, thou shalt not
lack anything in it; a land
whose stones are iron, and out
of whose hills thou mayest
dig brass.

Deut. viii: 7-8-9....

Voted to accept the list as follows :

Frank R. Clark, motorman,	Lowell A. Mann, organ
Willard E. Jones, farmer,	builder,
George E. Staniford, photo-	Edmund F. Lovell. painter,
grapher,	Bernard Post, farmer,
Lyman A. Cook, farmer,	Clarence E. Simpson, stone
Moses C. Adams, farmer,	mason,
Henry E. Hosmer, farmer,	Charles M. Choate, bottler,
Albert R. Daniels, carpenter.	

Art 8. To appropriate money for all necessary town expenses for the ensuing year.

Appropriated for	
Roads, bridges and sidewalks,	\$1,200 00
Incidentals,	1,200 00
Poor department,	1,150 00
Fire department,	600 00
Interest expense,	1,500 00
Debt due 1907,	750 00
Water sinking fund,	650 00
Snow bills,	200 00
Tree warden,	50 00
For all school purposes, including supt.	
salary,	4,850 00
For use of cemetery commissioners,	25 00
	<hr/>

Art 9. To see if the town will rebuild the foundation under the lock-up and appropriate money for the same.

Voted to appropriate \$75, to be expended under the direction of the selectmen.

Art. 10. To see if the town will appropriate \$72 for soldiers' aid on account of John P. Stratton from 1902 to 1905.

Voted to dismiss the article.

Art. 11. To see if the town will raise the sidewalk from Auburn street to Exchange street, and appropriate money for the same.

Voted to appropriate \$100 to raise the sidewalk on Main street from Auburn street to Exchange street.

Art. 12. To see if the town will appropriate a sum of money to exterminate the gypsy and brown tail moth, or act in any matter relating to the same.

Voted that \$286.78 be appropriated for expense of exterminating the gypsy and brown tail moth.

Art. 13. To see if the town will appropriate money to

exterminate the elm leaf beetle, or act in any matter relating to the same.

Voted that \$50 be appropriated to be used by the tree warden in experimenting on destruction of the elm tree beetle.

Art. 14, To see if the town will accept the legacy and trust under the will of the late Joseph Harding, or act in any matter relating to trust funds for care of cemetery lots.

Voted that the town do accept the legacy in trust under the will of the late Joseph Harding of Medfield.

Extract from will of Joseph Harding, late of Medfield, Mass.

"I give and bequeath to the town of Millis in the county and commonwealth aforesaid, the sum of three hundred dollars (\$300.00) in trust, the income thereof, or such as may be necessary, to be used for the care and maintenance of my burial lot in the cemetery in said town; and I direct that if in any year said income be more than sufficient for the care of said lot then the portion unexpended shall be added to the principal until such time as it may be needed for the purpose herein mentioned. And I further direct that in case my brother Alfred Harding shall at the time of his death be destitute of sufficient means for his funeral expenses, that said expenses and a sum sufficient to erect a suitable monument for him, the cost of said monument not to exceed seventy-five dollars (\$75.00) be deducted from the aforesaid sum of three hundred dollars, the remainder thereof to be retained in trust by the town of Millis for the care of my burial lot as hereinbefore specified."

Art. 15. To see if the town will amend Sect. 8 of Art. 2 of town by-laws, so as to have cemetery commissioners appointed for terms of three years, and they to have control of trust funds, and give a bond for faithful performance of trust.

Sect. 8 of Art. 2 of the town by-laws amended so as to read as follows:

"The selectmen shall in the month of April, 1907, appoint one cemetery commissioner for three years, one for two years, and one for one year, and shall thereafter in the month of April of each year, appoint one commissioner for three years," said cemetery commissioners shall have the care, superintendence and management of the public cemetery in the town, and may make rules and regulations concerning the same, which the board of health are not authorized by law to make, and which are not repugnant to any law of the commonwealth, or in contravention of any vote of the town. They shall cause to be prosecuted all offences which by law may become within their jurisdiction.

All moneys raised by the town, or hereafter appropriated for the care, improvement or embellishment of said public cemetery, shall be expended under their direction. "They shall be custodians of all funds now held or hereafter acquired by the town for the care of the said cemetery or burial lots, and shall choose one of their number as treasurer of the board, satisfactory to the selectmen, for the faithful accounting of such trust funds," and shall annually on the first day of February, make up and render to the auditor a detailed report, in writing, of the condition of the cemetery, with an itemized account of receipts and expenditures, also condition of the several funds, with estimates of amount of appropriation required for the coming year, which report shall be printed in the annual report of the town officers.

Art. 16. To appropriate money to pay military aid and soldiers relief.

Voted that the article be dismissed.

Art. 17. To see if the town will vote to extend the water main on Exchange street, and appropriated the unexpended balance now in the town treasury to the amount of \$1000 towards the cost of the same, or act in any matter relating thereto.

Voted to adopt the recommendations of the warrant com-

mlttee appropriating \$1000 from money now in the town treasury to extend the water main on Exchange street.

Voted the work be done under direction of the water commissioners.

Art. 18. To see if the town will appropriate a sum of money to extend the sidewalk from Adams street to the East Millis crossing, or act in any matter relating thereto.

Voted to appropriated \$40 to extend sidewalk on Union street from Adams street to railroad crossing.

Art. 19. To see if the town will appropriate a sum of money for concrete sidewalks, or act in any matter relating thereto.

Voted to appropriated \$200 for concrete sidewalk commencing at railroad crossing and running south.

Art. 20. To see if the town will accept the provision of section 339 of chapter 11 of the revised laws of Mass., relating to longer terms of office for the board of selectmen, assessors, overseers of the poor, or act in any matter respecting the same.

Voted to dismiss the article.

Art. 21. To see if the town will appropriate a sum of money for the purpose of altering and repairing Ellice school house, or act in any matter relating thereto.

Voted to appropriate \$600 for alterations and repairs on Ellice school house.

To be expended under the direction of the school committee.

Art. 22. To see how much the town will raise to employ a school physician to comply with chapter 2, acts and resolves of 1906.

Voted that \$15 be appropriated from the school appropriation to employ a school physician.

Art. 23. To grant money appropriated for the foregoing articles.

Voted to grant the sum of \$13,350 to meet appropria-

tions made under foregoing articles, and that the balance \$251.78 be taken from money in the town treasury.

Moderator appointed following warrant committee for 1907:

Edmund F. Lovell,	Roland W. Mann,
Henry E. Hosmer,	Bernard E. Post,
Michael E. Murphy,	J. H. Shannon,
Harris W. Alden,	Chairman Selectmen,
E. E. Adams,	" School Committee,
Edward J. Keith,	" Overseers,
Horace M. Cushman,	" Water Com.,
	Treasurer.

LOUIS LACROIX,
Town Clerk.

SPECIAL MEETING, APR. 23, 1907.

Meeting called to order by moderator.

Art. 1. To see if the town will take any action in regard to a readjustment of rates for the town water, or appoint a committee to consider the same, or give any instruction in any matter relating to the same.

Voted to adopt the recommendation of the warrant committee, that the moderator appoint a committee, and he to act as one of them, to consider the whole question and report to the town.

Committee, R. W. Mann, E. F. Richardson, B. G. Willard, B. W. Fuller.

Art. 2. To see if the town will take any action in regard to laying out a public way or street from the junction of Union and Daniels streets to the pumping station, or act in any matter relating to the same.

Voted to instruct the selectmen to lay out a street from junction of Union and Adams streets to pumping station,

same to be 30 feet wide to curve and by old plan the balance of way.

Art. 3. To see if the town will take any action in regard to the rebuilding of the railroad bridge on Plain street, or give any instructions or act in any matter relating to the same.

To instruct the selectmen to petition the county commissioners to have the railroad bridge on Plain street rebuilt and widened.

Art. 4. To see if the town will take any action or give instructions in regard to the use or control of the lot of land owned by the town on which the pumping station is located.

Voted that it is the sense of the town as represented by this meeting that the land be in charge of and under direction of the water commissioners, and that they charge a reasonable sum for all gravel used by private parties.

Art. 5. To see if the town will appropriate a sum of money for the repairs on the mill bridge at Rockville, or act in any matter relating to the same.

Voted to appropriate \$50.

Art. 6. To grant money under the foregoing articles.

Voted to grant \$50 to meet appropriations under foregoing articles.

Voted that we adjourn to six weeks from tonight, June 4, at 8 o'clock, to hear report of committee.

LOUIS LACROIX,

Town Clerk.

ADJOURNED MEETING, JUNE 4, 1907.

Called to order by Geo. P. Holbrook, annual moderator.
Committee reported in writing recommending rules and rates.

Voted to accept the report.

Report of the Committee instructed by the town of Millis at its meeting held April 23, 1907, to consider the matter of charges for the use of the town water, and to make recommendations in regard thereto, to the town at an adjourned meeting to be held June 4, 1907.

The above committee, consisting of E. F. Richardson, B. W. Fuller, R. W. Mann, B. G. Willard, and the Town Moderator G. P. Holbrook, met and organized with R. W. Mann as chairman and G. P. Holbrook as clerk, and they herewith submit their report.

The Committee finds after a careful inspection of the actual cost to the town of furnishing water, and of the receipts for the use of the same, that the town is now furnishing water at rates which do not produce an income sufficient to pay the cost of actually pumping the water, without regard to the original cost of the plant, or of the necessary repairs to the same, and that the rates that are now charged, except those charged for actual household use, are far below rates charged by other towns in this locality for the same use.

We also find that the Board of Water Commissioners of the town have full authority in all matters pertaining to the use and control of the town water that have been granted by the original charter of the Millis Water Company, except so far as the same has been or is regulated by the action of the the town or by Massachusetts statutes.

We find that the town has taken no action in regard to the use or control of the water since the purchase of the water plant by the town except to accept, with some few alterations, the original schedule of rates enforce by the old company. No meter rates have been adopted by the town.

We further find that it would be advisable for the town to put the water system not only on a self-supporting basis, but on a basis that will show that it is paying for itself. We believe that if the water system is credited with the use of hydrants by the town, with the water furnished to the

watering troughs, to the public schools and to the cemetery, as is done in other towns and at the same rates, it would be shown that the water system is paying the interest on the water bonds and for the sinking fund. This would be putting the system on the same basis as in other towns, and would not affect the tax rate in the slightest. It would be simply putting the credit where it belongs.

We also find that while the water commissioners have full power as to the above matters, it is advisable to have the town take specific action in regard to the various matters and in view of the above findings the committee make the following recommendations for adoption by the town as a part of its rules and regulations for the use of the town water.

That in every annual report to the town the water commissioners shall cause a statement to be made of the water furnished to the town for all purposes, including the public schools, cemetery, watering troughs, and for the hydrant service, with the approximate cost to the town therefor.

That all the old rates for the use of water be continued except so far as changed thereby

That in all cases where town water is used for other than for private family use, the commissioners shall install a water meter, and such user shall be charged at the regular meter rates hereinafter named, according to the reading of the meter.

The commissioners shall have the power to install a meter in any case where in their judgment it shall be necessary, and any person using water may have the use of a meter on application to the commissioners.

That in every case where a meter is used, the person having the use of the meter shall be charged the annual rental of one dollar for such use; he shall pay a minimum charge of twelve dollars per year for water, which shall entitle him to the use of ten thousand gallons of water per quarter, or forty thousand per year; all water used in excess of that amount to be paid for at the regular meter charges.

That where more than one family are using through the same meter, the same rates shall be charged for each additional family.

That the commissioners, shall before the first of July next, cause an inventory to be made of all the faucets and outlets for town water in the town, the exact location of the same and the owner of the property on which the same is located, the same to be used as a basis for charges for using water.

That no person shall be allowed to make any change, alteration or addition to or in any of the pipes conveying the town water in or about his premises, or in the use of the same without first obtaining the approval of the water commissioners for such contemplated action.

That in all cases the owner of the premises shall be charged with all water used on such premises, and with the observance of all rules and regulations adopted by the town, by the water commissioners, or under the authority of either, except in the case of persons using water under special contract.

That all contracts of any nature entered into by the water commissioners, or any contract relating to the use of the water shall be in writing, and shall be entered on the books to be kept by the commissioners for their records; and unless such contracts are so made and recorded they shall be of no validity or effect, and shall not be binding on the town. And in no case shall the commissioners be authorized or empowered to make a contract of any nature which shall be valid for a longer term than three years from the time of going into effect, and the same shall not be renewed except in the manner in which a new contract is made, as above.

That the water commissioners is hereby authorized to have jurisdiction in all matters in regard to the use or control of the town water and the grounds and lands adjacent to the town pumping station or other structures used by the town for its water system, except that their action in all

cases be governed by any action taken by the town, in such matter, and may make further rules and regulations accordingly.

That all rules and regulations now in effect in regard to the use of the town water shall be continued, and shall be effective, except so far as the same may be inconsistent herewith.

That all rules and regulations in regard to the use or control of the town water, which shall be in effect on the first day of July, 1907, shall be printed and copies of the same shall be distributed as soon as possible to all persons using town water.

That in all cases of non-payment of water rates or charges for twenty days after the same are due, a demand shall be sent to the owner of the premises, where the water is taken, and to the occupants of such premises, and unless the said rates or charges are paid within ten days thereafter, together with twenty cents for such demand, the supply shall be shut off, whether other parties taking water through the service are delinquent or not, and the water shall not be turn on until all charges are settled in full, including two dollars for turning on and off the water.

That the schedule of rates for the use of the town water be as follows, viz.:

First and second faucets,	\$8.00 per year.
Each additional faucet, whether more water is used or not,	2.00 "
Water closets, each,	4.00 "
Bath tub,	2.00 "
Each horse or cow,	1.00 "
Lawn hose, to be used under regulations,	5.00 "

Meter rates as follows:

For 500 gallons or less per day,	30c. per thous. gals.
" 500 to 1000 gal. "	25c. "
" 1,000 to 10,000 " "	20c. "
" 10,000 to 20,000 " "	15c. "
" 20,000 to 30,000 " "	12 1-2c. "
" 30,000 and above,	10c. "

That any infraction of any of the rules or regulations in force in regard to the use of the water shall be cause for the shutting off of the water in such case, and the water shall not be turned on again in such case without the payment of two dollars for the shutting off and the turning on of the water.

By the committee,

ROLAND W. MANN,
E. F. RICHARDSON,
B. W. FULLER,
B. G. WILLARD,
GEO. P. HOLBROOK.

Voted unanimously to adopt the recommendations of the committee as a whole.

Vote of thanks extended to the committee.

LOUIS LACROIX,
Town Clerk.

SPECIAL MEETING NOV. 5, 1907.

Meeting called to order by George P. Holbrook, moderator.

Article 1. To see if the town will accept the town way (from Daniel street to the pumping station), as laid out by the selectmen, appropriate money for the same, or act in any way relating thereto.

We, the selectmen of the town of Millis, having complied with the requirements of the law in relation to notifying the owners of land which we were petitioned to lay out a town way, have laid out such town way as follows: Beginning at a stone bound at the junction of Union and Daniel street so-called at land of the New York, New Haven and Hartford railroad company, and land left for a leading way, said leading way is twenty feet on Daniels street and thirteen and three-tenths feet on a line parallel with such railroad fence, then N. 55° 30' E. five hundred and twenty feet (520) on the

line of said railroad fence to a bound, then N. 38° E. one hundred and fifteen feet (115) to a bound, said line running through said leading way about forty-five (45) feet and land of Mrs. C. W. Emerson at about fifty-five (55) feet and land of Mrs. M. E. Dean about fifteen (15) feet, then N. 17° E four hundred and sixty-five feet (465) to a bound, said line running through land of Mrs. M. E. Dean about one hundred and ninety-five (195) feet and land of J. Martinson about two hundred and seventy (270) feet, then N. 12° E three hundred and forty (340) feet through land of said J. Martinson to a bound at land formerly owned by Henry L. Millis, said bound being fifty (50) feet south east from a stone bound at the corner of land of said Henry L. Millis, J. Martinson, and land belonging to the town of Millis. The other side of the street is described as follows: Beginning at a point on Daniels street forty-seven (47) feet northerly from the monument on Union street, thence in a line parallel with the first part of this description about one hundred and eighty (180 feet) through land of Mrs. E. F. Richardson and three hundred seventy (370) feet through land of Mrs. C. W. Emerson and forty (40) feet on land of Mrs. M. E. Dean the said town way to be thirty (30) feet wide to this point, thence continuing on land of said Mrs. M. E. Dean N. 15° E. four hundred and fifty (450) feet to a bound, said bound being forty (40) feet from bound on the other side of the proposed street, thence through land of said Mrs. M. E. Dean N. 60° E. two hundred and ninety-four (294) feet to a bound at land of the town of Millis, said bound being fifty-five (55) feet south-west of the stone bound described in the first part, and on the division line of land of said Mrs. M. Dean and land of the town of Millis, said point being near the pumping station.

The above layout is in accordance with a plan made by Henry S. Partridge dated May 23rd, 1907, and is a part of said layout.

Our agreement with owners of the land over which town

way passes for their damages as follows: That the said town of Millis pay to the said J. Martinson the sum of \$12 50
 To the said Mrs. E. F. Richardson the sum of 28 57
 To the said Mrs. C. W. Emerson the sum of 5 00
 To the said Mrs. M. E. Dean the sum of 8 33

All trees growing on the land over which the town way passes shall be removed within three months, and your selectmen hereby respectfully report said town way to the town for its acceptance.

Dated at Millis this 7th day of October in the year 1907.

GEO. F. HOLBROOK,

FRANK E. COOK,

ELMER L. RICHARSON,

Selectmen of the town of Millis.

Filed in clerk's office,

Oct. 26, 1907, 9h. 15m. P. M.

LOUIS LACROIX, town clerk.

Voted unanimously to accept the report of the selectmer on lay out of street.

Voted unanimously to appropriate \$60 from money appropriated Mar. 5, 1907, to incidental department.

Art. 2. To see if the town will authorize a committee to investigate the question of electric street lighting and report with recommendations at the next annual meeting.

Voted that a committee of eleven be appointed to look into the question of street lighting for the future, and they to report at the next annual meeting.

Voted that the committee be appointed by the moderator, he to be one of same. Appointed

W. W. WHITING,

M. J. WEST,

Memorial Day Committee.

TREE WARDEN'S REPORT.

Appropriation,		\$5. 00
Paid R. W. Mann for trees,	\$5 75	
M. D. Bullard,	4 50	
L. LaCroix,	11 50	
" labor and team,	8 90	
Arthur Shannon, labor,	2 75	
Warren Heath, "	1 00	
F. H. Holland, Jr. "	12 60	
" tree protectors,	3 00	
	—	\$50 00

Seventy-five maples were set out and a large number trimmed.

Trees were presented to the town by W. P. Holcombe, J. D. Ward, A. L. McDonough and C. E. Simpson.

There is much to be done yet in the way of trimming and planting trees, also in cutting roadside brush.

As the cutting and burning of roadside brush comes under the care of the tree warden, I would recommend that he be granted one hundred dollars this year.

A Warning to any Person.

Laws of Mass., relating to Tree Wardens.

Section 13. *All trees* within the limits of a public way shall be public shade trees, and shall not be cut or removed, in whole or in part, except by the tree warden or by a person holding a license so to do from the tree warden. Whoever violates the provisions of the section shall forfeit not less than five nor more than one hundred dollars to the use of the town.

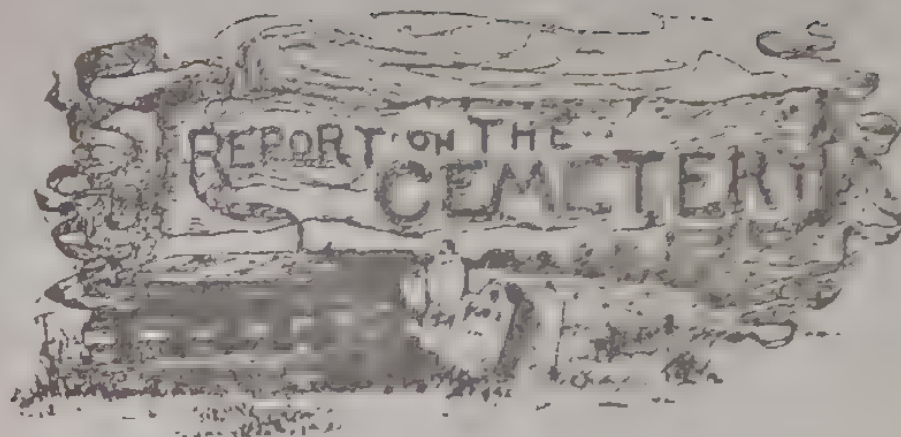

Elm Leaf Beetle.

Appropriation,		\$50 00
Paid Thorne Bros., supplies,	\$8 30	
B. W. Fuller, "	1 32	
F. H. Holland, labor and supplies,	4 70	
L. LaCroix, labor and team,	4 50	
	—	\$18 82
Unexpended balance,		31 18
On hand hose and other supplies to the value of		6 00
Sprayed 8 elms with arsenic of lead.		
Sprayed 20 elms with kerosene emulsion.		

At the usual time for spraying no beetles were found. Later in August all four stages of the beetle were found at the same time, making it very hard to destroy them. They have spread to nearly all the elms in Rockville and quite extensively in Millis, but did not do much harm except in a few trees in Rockville. While such a winter as this (warm in December and January and very cold in February) is supposed to give the beetles a severe backset, still I think the town should appropriate fifty dollars to be used in killing the beetles if found necessary.

FRED H. HOLLAND, JR.,

Tree Warden.

The Cemetery Commissioners submit the following report:

In addition to cleaning up the cemetery the fence has been painted and some maple trees have been set around the circle.

Besides the usual work this coming year, your commissioners would like to have the walks and roadways properly named and marked, and therefore recommend the usual appropriation.

Receipts.

Appropriation,	\$25 00	
Received from Mary Adams fund.	29 85	
	— —	\$54 85

Expenditures.

E. F. Lovell, painting fence,	\$13 20

REPORT OF INSPECTOR OF ANIMALS.

To the Honorable Board of Selectmen:

I submit to you my report for the year as inspector. One complete inspection of all neat cattle and the conditions of the premises where said cattle were kept, and a written report sent to the Cattle Bureau. During the year four cows have been quarantined, two of which were killed and two afterward released. Two dogs were quarantined, one of which I killed by request of the owner, and the other is still in quarantine.

Respectfully submitted,

LYMAN A. COOK,

Inspector of Animals.

REPORT OF GYPSY MOTH SUPER- INTENDENT.

A thorough inspection of the town revealed eighteen gypsy moth clusters, and the brown-tail moth has been found in small numbers. The usual work of burlapping will be required next season in the gypsy moth colonies.

The colony so prominent in 1906-7 has been thoroughly inspected and four caterpillars found.

H. W. ALDEN,

Local Superintendent.

REPORT OF SCHOOL COMMITTEE.

Your committee was given a special appropriation of \$600 at the last regular town meeting for the purpose of renovating the Ellice schoolhouse.

Between the time of the town meeting and the summer vacation of the schools, when the work was to be done, the increased cost of materials, coupled with the added requirements of the state police, made it impossible to keep the cost of the undertaking within the appropriation. After carefully and thoroughly considering the conditions, your committee decided that it was part of economy and for the best interests of the town, to carry the work where the building would have its new arrangement of rooms, and be heated by a system adequate for all time and acceptable to the state inspectors.

Accordingly we recommend a further special appropriation of \$250 to be expended as follows:

Edward LaCroix, balance due on heating plant,	\$100 00
Painting, papering, blackboards, etc.,	150 00
	<hr/>
	\$250 00

Following is the account of all money received and expended by the School Department:

The untimely death of Mr. Willard E. Jones on May 12, 1907, deprived the town of his valuable services, the other school officials of a pleasant and helpful associate, and the children of a true and thoughtful friend.

The interest shown by him during his short term of service as a member of the school committee, gave evidence that the town and schools would profit by his experience as a teacher, and his connection with school work in this and other states.

He had returned to his native town after years of absence to make a home, and naturally turned his attention to the upbuilding of his town along the lines in which he had been interested.

His capabilities in educational matters make our loss doubly severe and the vacancy caused by his death a difficult one to fill.

SUPERINTENDENT'S REPORT.

TO THE SCHOOL COMMITTEE OF MILLIS:

I hereby submit my sixth annual report of the condition of the public schools of Millis for your consideration.

The following table of statistics is submitted to show the constancy in the number of pupils each year for five years, in spite of many changes due to removals, and to the coming of other families. It also shows an increase of pupils over fifteen years of age since the high school was established, and the enrolment in the high school to be about the same each year, with an upward tendency of the percentage of attendance.

The school census of September 1, 1907, shows a decided increase over the census of preceding years which indicates full schoolrooms in the future.

Date.	School Census Children between 5 and 15 years.			Membership to Jan. 31st.	Membership for year ending previous June.	Over 15 years of age at time of enrolment.	High School membership.	Percentage of attendance for year ending previous June.

Total 120 males and 142 females.

The selection of teachers is the most important duty of a superintendent, because his work will not bring about the results which his office may legitimately be expected to show, if his time is used in trying to make competent teachers out of those persons who lack the natural qualities that are expected to develop by training and experience.

The problem becomes doubly difficult when the money available for salaries compels him to offer but \$360 a year to

secure teachers to do work that neighboring towns are paying \$600 for.

The period of industrial activity through which we have been passing, with its attendant advanced wages for labor and high cost of living, has led a great number of the strongest young men and women, who would otherwise have entered the teaching profession, to enter other fields of industry. The result is a decided scarcity of teachers, and those willing to work for \$360 a year are either of unskilled training, no experience, failures in other lines of work, or else totally unfit to be teachers at any price.

This scarcity has compelled the larger towns and cities to draw more than usual on the smaller towns, thus taking from them their best teachers or those whom the small towns have given the opportunity to become trained in experience until they are of some value. Millis is obliged to meet this condition, and the problem of keeping the schools up to the standard we desire thus becomes a difficult and serious one.

In September what seemed to be the very best possible disposition of the teachers was made. Miss Mann was transferred from the Ellice grammar room to grades seven and eight in the Adams School. Miss Wood was transferred from grades three and four Adams School to the Ellice primary, and Miss Newhouse was transferred from grades five and six to grades three and four in the Adams School. Miss Violet H. Barnes was appointed to the Ellice grammar, and Miss Olive L. Douglas to take Miss Newhouse's previous place. Miss Douglas was unable to begin in September, and Miss Eula S. Taylor took the place until Christmas. Miss Douglas is now in charge with the school in fine condition.

The schools were hardly under way when an advantageous offer was made Miss Newhouse to go to Franklin, which she accepted.

Miss Bertha G. Andrews, a graduate from Bridgewater Normal School was secured to take Miss Newhouse's place.

Miss Sanborn was retained as assistant in the high

school, and fortunately Miss Morse continued in Grange Hall School.

It became necessary to select a principal for the high school on account of the resignation of Mr. Fearing to accept a government position.

The vote of the State Board of Education to admit, beginning with 1908, pupils from approved high schools to the State Normal Schools without examination recognizes the growing importance of high schools, and serves as an inducement for us to strengthen our own. The course of study has been revised, and I believe our school will make a favorable showing in comparison with other schools limited to two teachers. In order to advance our high school to meet these new conditions it was necessary to offer more salary for a principal who could furnish the qualifications of scholarship, discipline, experience, and executive ability to do this. Mr. Charles B. Sylvester, A. M., from Dartmouth College, was selected, and I am glad to report as an improvement, the added appreciation by the pupils of the value of work both in school and in home study. A decided advance has also appeared in the attitude of the pupils in regard to promptness and regularity of attendance, for which both teachers and pupils are to be commended. As evidence of increased interest in attendance the school holds the banner for the month of January, it being the first time it has had this honor since the organization of the school.

Mr. Sylvester has written a short report to which I refer you.

Of the eight who were graduated last June Frank S. Hoff, and Israel Rotman are attending Connecticut State College; Berta M. Burnett, Elizabeth L. Dean and Laura F. Thrasher are attending Framingham Normal School, and Annie G. Maguire, Howard A. Payson, and Florence M. Shephardson are attending Commercial School.

The fact that every member of the class is thus making further preparation for a useful life, indicates that the high

school course served its purpose in inspiring them to do so' and thus furnishes a strong argument for the existence of the school and a recompense for its cost.

Miss Mary L. Vose was appointed supervisor of music in place of Miss Ethel C. Grimes resigned. An increased interest is shown throughout the schools which warrants the continuance of a supervisor. Certainly the work of Miss Vose is a valuable addition to our schools.

For further information I refer you to her report herewith.

All the school desks in the Adams and Grange Hall schools were scraped and varnished during the summer vacation.

This needed work had been delayed so long that the condition of the desks made it an expensive job. I recommend that in future the desks be given a coating of varnish before they are worn enough to require scraping.

The work done on the Ellice school building gives two good rooms there, and a heating and ventilating plant that is doing good service. These two rooms have better ventilation than any other schoolrooms in town. It is a matter of regret that the appropriation was not large enough to complete the inside of the rooms. Some new desks were purchased, others need to be revarnished. New blackboards are needed, and the inside woodwork ought to be painted and the walls tinted. With these matters attended to, this building would stand ahead in fittings, of most country school buildings of its size.

Last spring a School Improvement Society was formed at the Adams School which did commendable work in grading the school grounds, making flower beds, and in setting out shrubbery which in time will serve to beautify the school yard.

In connection with this work our thanks are extended to Mr. Roland W. Mann, Mr. Louis LaCroix, and others, for money and shrubbery and help given.

East Medway Grange increased to \$10 its annual offer to be used in prizes for work of school children. This year the prizes were offered for home gardens, both flower and vegetable,

Thirty-five children competed for these prizes and the results were very satisfactory, though the dry season worked havoc with many. The first, second, and third prizes for vegetables were won by William Porter, Sigrid Lindahl, and Nettie Rice. The first, second, and third prizes for flowers were won by Lura Richardson, Earle Daniels, and Helen Cassidy.

Our attendance has been affected to quite an extent since September by a diphtheria scare and recently by the measles.

There were four cases of diphtheria, but fortunately none were fatal.

In connection with attendance I wish, again, to call the attention of parents to a part of the school law on medical inspection which does not seem to be understood.

Section 3 of the law states, "The school committee shall cause to be referred to a school physician for examination and diagnosis every child returning to school without a certificate from the board of health after absence on account of illness or from *unknown cause*. This makes it necessary for teachers to require the cause for all cases of absence, and parents should co-operate in aiding them as much as possible.

The work of Dr. Hill as school physician, though not as effective as it might be with a larger appropriation, has been helpful to the teachers and beneficial to a number of children whose parents have been advised of physical defects that can be remedied. I suggest that the physician be instructed to visit the schools once each month next year, and that an amount be appropriated large enough to cover the cost.

The tests of eyes and ears have been made with the following results:

Number enrolled in the schools

Number found defective in eyesight	44
Number found defective in hearing	12
Number of parents and guardians notified	35

The Teachers' Institute held in Millis, May 6, under the auspices of the State Board of Education, was a successful gathering, and served to inspire our teachers to work along broader lines.

The chief expense for books has been in the purchase of new reading books for some of the grades, some new music readers, and in addition to replacing worn-out books in the high school, new books for advanced book-keeping, zoology, astronomy and agriculture.

Supplies have generally been used with care, and the cost is kept as low as it is possible, to providing what is necessary.

Our schools are on a good basis at the present time, and any attempt to secure teachers on smaller salaries than are now given them, I fear will work a serious injury. The tendency should rather be somewhat upward, and I have no doubt you will be as liberal as possible in providing good teachers, for they are the first requisite of good schools.

Respectfully submitted,

M. J. WEST,

Superintendent of Schools.

Millis, Mass., January 31, 1908.

REPORT OF HIGH SCHOOL PRINCIPAL.

To the Superintendent of Schools:

Dear Sir: At your suggestion I present the following report of the Millis High School.

We are able to report improvement in attendance for November, December, and January. In attendance for January the High School is the banner school of the town. We hope to continue this improvement, at least to the extent of equaling the record of many towns of the state. The teachers of the High School consider the matter of attendance not an end in itself, but as a good indication of a pupil's future success.

We are endeavoring to raise the scholarship of the school. Every half term a report of such pupil's progress is sent to the parents. It is gratifying to note that the last report sent out at the close of the fall term showed that five-eighths of the pupils had bettered their rank in a majority of their studies. But a different phase is presented when it is considered that nineteen out of a present membership of thirty-nine are below the passing mark in some part of their work. A recent canvas of the school, made principally to determine how much time was spent on home study, showed that one half of the school spent on an average, an hour to an hour and a half each day. The other half was about equally divided between the two extremes of two hours and one-half hour. The average high school pupil should devote to home study at least two hours every day in order to accomplish the work of the school. If this practice is not adhered to the work will either not be done, or if done

will be merely superficial. This fact needs to be brought emphatically to the attention of parents.

The new course of study introduced in September, offering a wider range of electives, is working well. Before this course can be made fully college preparatory, and the approval of the New England College Entrance Certificate Board secured, another teacher is essential. This seems our greatest need.

A debating society has been organized, and it is hoped that an interest in debating may be aroused. The great majority of the pupils subscribe for a school paper, Current Events, and usually every week a period is given to it.

Rev. Mr. Daniels of South Framingham and Rev. Mr. Buxton have addressed the school. We hope to obtain other men during the year to speak to us.

I wish to speak gratefully of the spirit which pervades the school as a whole. It is that spirit which was remarked upon by Dr. Prince at the time of his recent visit to us, and which I consider the greatest asset of our school.

In conclusion, I wish to acknowledge and thank you for your helpfulness to me in my work.

Very respectfully,

CHAS. B. SYLVESTER,

Principal of High School.

Millis, Mass., January 25, 1908.

REPORT OF THE SUPERVISOR OF MUSIC.

MR. MELVIN J. WEST,
Superintendent of Schools :

Dear sir : I herewith submit my first statement concerning the work in music since September, 1907.

The work has progressed favorably, the especial aim (particularly in the lower grades) having been to develop the individual, and to stimulate and develop in the mind of the child the taste and love for good music.

As in every other study in the school curriculum individual attention must be given to the preparation of the lesson, and the recitation is made by the individual, so the same should be true in music, and the child be encouraged to work individually in this as in every other branch.

Rote songs have been carefully selected for their musical value, and the poems for the value of thought and inspiration.

The best results in school music depend largely upon the co-operation of the parent and grade teacher with the Supervisor.

Our pupils, particularly the boys, need help to realize and really believe that music must be studied as any other subject in the school course. We must strive to arouse enthusiasm and inspire confidence in order to gain the best efforts on the part of the pupil.

A summary of the work is as follows : — the scale as a whole, the relation of each tone to every other tone in the scale, oral tonal dictation, tonal written dictation, solfeggi,

various kinds of rhythm and meter, chromatics, singing and writing of three forms of minor scales, simple melody writing, reading in nine keys, singing in two-voice and three-voice parts.

In the High School chorus singing is carried on exclusively. In this department where the pupils have had no fundamental training in the lower grades, a high standard cannot be reached. Especially is this true where no fixed per cent. is to be obtained for promotion, as in the other studies.

It is my earnest desire that in the near future "Music" may be placed upon the report card, and a certain standard be fixed other than that inspired by the teachers and Supervisor.

I take pleasure in acknowledging here the helpfulness and courtesy extended to me by superintendent and teachers during the year.

Respectfully submitted,

MARY L. VOSE.

GRADUATION EXERCISES

OF THE
MILLIS HIGH SCHOOL,

FRIDAY, JUNE 21, 1907.

MOTTO: Be just in all thy actions.

COLORS: White and Gold.

FLOWER: The Daisy.

TRUANT OFFICERS' REPORTS.

M. J. WEST,

Superintendent of Schools.

Dear Sir: I have attended to eight cases of truancy during the past year and have inspected the factories.

There are no children under the age required by law working in factories.

Respectfully yours,

W. H. THORNE.

Truant Officer.

M. J. WEST,

Superintendent of Schools.

Dear Sir: I have attended to fourteen cases of truancy during the past year at Rockville.

T. J. MCCARTHY.

Truant Officer.

Millis, Mass., Jan. 31, 1908.
